

General Information for LEED – 5754 Series Alloy

Luxecoat S.r.l. hereby declares that all the coil coated aluminium produced and fabricated is 100% recyclable. Although the material is not rapidly renewable nor can we reuse our resources, it is however possible to recycle all scrap material accumulated throughout the production at 100%.

The production of the 5754 series alloy is performed on the premises of:

- Profilglass S.p.A. locate in Fano PU, Italy
- Slim Aluminium S.p.A. locate in Cisterna di Latina LT, Italy

Product: Alloy: 5754 Series Paint: PVDF	
1- Recyclable	100%
2- Reuse of resources	0%
3- Recycled Material Alloy 5754 Series	50%-70%
4- Content Recycled After Consumption	25%
5- Content Recycled Post Industrial	25%
6- Material Rapidly Renewable	No
7- Provenance of Aluminium	L'Aquila, Italy
8- Fabrication	L'Aquila, Italy
